- Graduated with high distinction in Mathematics, Physics, and Logic studies.
- Active participant in student leadership and regional academic competitions.

Beltie International School 2018 – 2023
General English & Secondary Education Certificate • Phnom Penh, Cambodia

- Completed advanced English language immersion and core general curriculum with distinction.

ACADEMIC & PROFESSIONAL EXPERIENCE

START UP COMMUNITY 2023 – Present
Senior Grade 12 Mathematics Educator • Phnom Penh, Cambodia

- Design and deliver comprehensive mathematics curricula for Grade 12 students preparing for the Cambodian National High School Examination (Bac II), focusing on calculus, probability, geometry, and algebra.
- Achieved an outstanding **100% pass rate among all enrolled students in the 2026 Bac II National Examination**, with a notable percentage achieving top-tier individual subject scores.
- Develop original practice exams, problem sets, and interactive learning frameworks that break down complex mathematical concepts into structured, step-by-step methodologies.
- Conduct bi-weekly analytical evaluations to identify individual learning gaps, providing customized 1-on-1 mentorship and strategic exam guidance.

Spring Corporate Internship Program 2024
Marketing & Commercial Strategy Intern • Phnom Penh, Cambodia

KEY SOFTWARE & DIGITAL PROJECTS

Haang (ហាង) – Restaurant Operating Platform In Active Development
Full-Stack Web Application for Restaurant Operations • Creator & Developer

- Architecting a centralized web application designed for small-to-medium restaurant owners in Cambodia to streamline daily business workflows.
- Engineering module components for real-time inventory management, automated menu updates, order tracking, and sales analytics reporting.
- Integrating intuitive user interface designs tailored for localized business workflows and multi-device access.

Cambodia Interactive Travel Map 2024
Front-End Cultural & Geographic Explorer • Lead Developer

- Developed an interactive, web-based geographical platform detailing cultural landmarks, historical sites, and regional highlights across Cambodia.
- Implemented responsive mapping functionalities, clean user interface elements, and dynamic data filtering by province and category.

Pink Messenger 2024
Real-Time Chat & Video Call Platform • Project Developer

- Built a web communication web tool incorporating live instant messaging, audio transmission, and interactive video conferencing functionality.
- Designed responsive web UI elements ensuring cross-browser compatibility and optimized real-time data streaming.

HONORS, AWARDS & CERTIFICATIONS

Angkor Mathematics Competition 2023
Official Certificate of Excellence

- Recognized for superior performance in complex mathematical problem solving, logic testing, and quantitative speed challenges against regional contestants.

National Public Speaking & Debate Championship 2023
Top 8 Finalist (Out of 34 Regional Teams)

- Demonstrated persuasive argumentation, crisis response, and public speaking mastery across multiple rigorous competitive rounds.
